

VOLUNTEER STORY

KELSI

I volunteer because I love seeing the change and difference we make in peoples lives. When I first began with Suffolk Family Carers they were all very welcoming and appreciative for a young person to be joining their team (16 at the time), finding just a couple hours a month to help them make carers lives better.

I have now volunteered for Suffolk Family Carers for 2 years, the team has watched me grow into a more confident young person and I have loved watching my relationships grow between the children we help. Volunteering helps those in need. I am so proud to say that I make a difference in my community, especially for this amazing charity!
